

Do you take requests during events?

Yes, we take requests throughout all of our events!

The music played at your event will be a reflection of the different musical tastes of your guests. We place request cards on guest tables to encourage requests. (request cards are put out only if the contractor approves them in advance)

Your patience is appreciated in waiting for your musical request. Our experienced DJ's make every effort to play all requests. Please remember, we discuss musical requests, suggestions and constraints with the contractor prior to every event. We abide by the contractors wishes at the event. Many contractors encourage us to play requests of guests - which we love to do.

Keep in mind if your song request contains questionable lyrics, profanity or is on the "do not play" list of the contractor - it will not be played at the event.
