

Where is the pricing for your packages on your website?

There are several variables affecting the pricing of the services and packages. It would be difficult to post one generic price.

Pricing is based on:

1. What are the venue characteristics? ie. city, inside or outside.
2. What is the date of your event?
3. How many guests do you expect at your event?
4. Is there a table and power provided at the location? (power can be a factor with outdoor events)

At Sounds Unlimited Inc., we believe that each client has a unique and specific vision of what they want at their event. We work with all of our clients to deliver that unique experience. It would be unfair to assume that every client has the same needs.

We ensure the pricing of each event is customized reflecting the specific situation of each client's needs. Please contact our office for a pricing package tailored to your special event.
